First of Season

As a rule, Globites are supplied with pretty fair beef, but just now there is a treat in store for general consumers at the Pioneer Meat Market.

Five months ago Manager Reed purchased a specially selected stock of steers to the number of five hundred. He had them shipped in from the range to Safford and since that time has been feeding them with the most succulent foods that nature affords. Are they fat? Well, I should say Yes, and are about the choicest bunch of fine heaves

ever brought to Globe. You can't beat them on any eastern market, and that is saying a good deal. Just drop in at the Pioneer and see for yourself. They are all two and three year olds and everybody knows that heaves at this age are in their prime.

The Pioneer Market management takes a just pride in the fact that these heaves are the first bunch of Safford fed stock to be brought here this season.

By Associated Press.

EL PASO, Texas, January 3.—A thousand dollars' worth of gems were on the person of a young Indian woman who was found dead in an adobe this evening. Death was caused by hemorrhages. In a trunk were deeds and patents to large and valuable tracts of land, costly fabrics and a large sum of money. Nothing is known of the woman except that she came to El Paso Saturday from Roswell, N. M.

EXCITEMENT IN COPPERS

Allouez, Centennial and Osceola Make Sensational Advances—Superior & Boston Goes Up to Five Dollars—A Few Other Advances.

(By I. N. Kinsey)

GLOBE, January 3.—The copper market today was the wildest for many years. Almost every stock on the list showed activity and brokers were simply swamped with orders. Fluctuations were extremely sharp, especially in Osceola, Allouez and Centennial. Stock in all three seemed cornered and all the floating supply was entirely taken up. Lawless manipulation was again shown in Arcadian and Trinity. Paine says if market conditions continue wild tomorrow to sell stocks, as the rise has been too fast and many stocks are selling for all they are worth, even on 25 cent copper.

Some good coppers did not have much of a rise, and it is advised to buy those coppers that have not started, as they will sell higher.

Superior & Boston was very active today and great interest is being taken in the stock. A few sales were made at \$7, but held around \$5 most of the day. A little stock is coming out at this figure, especially small holdings, but there is no question that the stock is lodging in stronger hands. Little of Globe's stock can be had under \$8 to \$10.

In New York the market was about steady. Amalgamated was the strongest and is pegged for \$125. Bank of England rate unchanged. United States Steel closed year with net earnings of nearly \$154,000,000.

Stock Market

By Associated Press.
NEW YORK, January 3.—The stock market today failed to reflect any pronounced views on the speculative outlook. Harrison stocks are still under pressure. Delaware & Hudson fell away sharply in spite of an increase in the dividend rate. Amalgamated was

strong due to current reports of an intention to further increase the dividend. Atchafalpa was helped by reports of the same character.

The market was made up almost entirely of individual movements of this kind due to special causes.

The money market continued to fall. The maximum early rate for call loans was 14 per cent, compared with 20 per cent yesterday, and the rate got down to 6 per cent comparatively early in the day, while 2½ per cent was the low price. The dull, featureless character of the market was emphasized as the day wore on.

Copper Retains Strength

NEW YORK, January 3.—Copper was lower in London, under liquidation apparently, with spot quoted at £103 10s, and futures £105. Locally, however, the market continued strong, with Lake quoted at 24.00 to 24.25; electrolytic, 23.75 to 24.00; casting, 23.50 to 23.75.

Lead was unchanged at 6.00 to 6.25 in the local market. In the English market it was lower at £19 15s.

Spelter: 5s lower in London at £27 15s. Locally the market was firm with spot quoted at 6.65 to 6.75.

Iron was lower in common with other English metal markets. Locally the market was unchanged.

Silver, 70½; Mexican dollars, 54½.

FUEL SHORTAGE CLOSES MINES

Copper Hill and Blackhawk Mines May Resume Operations Tomorrow

The mines of the Arizona Commercial company, the Copper Hill and Blackhawk, were closed down yesterday morning because of a shortage of fuel oil. The company has been receiving its oil supply from the Old Dominion, which pumps it part of the way to the Gray shaft, being transported the remainder of the way by small cars. The recent bad weather has been partially the cause of the shortage there owing to the fact that only about enough for use at the Gray could be sent up from the Old Dominion.

Superintendent Snell stated last evening that a car of coal had been secured and work of hauling it to the Copper Hill and Blackhawk would be begun today and that operations at the mines would be resumed probably tomorrow.

The coal now in possession of the company will last until a supply of oil is received.

WALTER McCULLOUGH MAKES A BIG HIT

"Under the Stars and Stripes" was the play at Dreamland last night. Notwithstanding the inclemency of the weather, a large audience was in attendance. The Rich Stock company has made good from the start, but the big individual hit of the engagement so far was made by Walter McCullough last evening. The part is one that fits him to a nicety temperamentally and he took advantage of every opportunity. His voice is as resonant as a pipe organ and he is possessed of rare personal magnetism. His impersonation of Dr. Sedley Selwyn, the poet surgeon, left nothing to be desired. It was a piece of highly dramatic acting which one is seldom privileged to see in this part of the country.

The specialty features as usual were the best ever seen here with a similar organization and the Sisters Kealey and Miss Chandler have won all hearts.

Tonight the play will be "The Politician," and is full of comedy.

The Rich company is deserving of the most liberal patronage, as they are presenting shows far superior to those previously seen here for higher prices.
